Better Snacking for Kids

About Us

Bringing the Goodness of Millets to Every Table.

At Chaudhary Farm Products, we bring together the goodness of traditional Indian millets and the joy of everyday snacking. With a diverse range of millet-based products, we combine time-honoured recipes, quality ingredients, and hygienic processing to create snacks that are flavourful, nourishing, and rooted in Indian food traditions.

From farm to hand, our focus is on making millet-based snacking more accessible, enjoyable, and relevant to modern lifestyles. Through our commitment to nutritious food choices and healthier snacking initiatives, we aim to bring the richness of millets to more homes, one delicious bite at a time.

NUTRITION THAT HAS STOOD THE TEST OF TIME

Long before wellness became a trend, millets were part of India's food culture. Naturally rich in nutrients, different millets provide varying amounts of fibre, protein, minerals and other essential nutrients. They're versatile, nourishing grains that can be transformed into the kind of snacks people actually want to eat

INDIAN BY ROOTS. OVERLOOKED BY RETAIL.

As consumers look for more considered food choices, millet-based snacks offer a way to bring India's indigenous grains into a new generation of snacking habits.
18 million tonnes of millets produced in India in 2024–25. Yet a 2025 consumer survey found that 90% of respondents consumed millets only occasionally.

The opportunity is to bridge that gap with snacks that are convenient, flavourful, bite-sized and rooted in Indian ingredients.

More than a new product on the shelf, it's a chance to make an overlooked grain part of everyday snacking.

What's NEVER Allowed in our Snacks!
